

GLOBAL BIOANALYSIS SUMMIT

06 - 07 November 2017

SAN DIEGO STATE
UNIVERSITY

THEME OF THE CONFERENCE

Discussing Current Trends and Future Scope in Bioanalysis

 <http://bioanalysissummit.com/>

OVERVIEW

Global Bioanalysis Summit 2017 hosted and organized by Clyto Access on 18-19 September 2017 at San Diego USA with the theme “Current Trends and Future Scope in Bioanalysis”. The conference aims to bring together outstanding academic scientists, researchers and research scholars to exchange and contribute their experiences and research results on all facets of Bioanalysis. Clyto Access invites all industries and companies related to equipment, manufacturing on Bioanalysis research.

Global Bioanalysis Summit 2017 is organized in association with the Journal of Molecular and Applied Bioanalysis an open access journal which publishes original studies on preparative and analytical techniques that include purification and quantification of analytes. The journal covers various fields of research that are carried out in medical testing, industrial process, qualitative and quantitative analysis of biopolymers, identification of new bioactive compounds, environmental science and in the food and pharmaceutical industries.

AGENDA

- NOVEL APPROACHES TO ANALYTICAL AND BIOANALYTICAL METHODS
- ADVANCES IN MASS SPECTROMETRY
- BIOANALYTICAL METHODOLOGY
- RECENT APPLICATIONS OF ANALYTICAL AND BIOANALYTICAL METHODS
- ISSUES AND SAFETY CHALLENGES IN BIOANALYSIS
- IN VIVO AND IN VITRO APPLICATIONS OF MAGNETIC RESONANCE
- SMALL MOLECULES, PEPTIDES AND SMALL MOLECULE BIOMARKERS
- METHOD DEVELOPMENT CHALLENGES IN BIOANALYSIS
- NOVEL DRUG DELIVERY SYSTEMS AND ITS MAJOR CHALLENGES
- VACCINE DESIGN AND DELIVERY TECHNOLOGY
- PEPTIDE AND PROTEIN DRUG DELIVERY
- DRUG DELIVERY EQUIPMENTS AND MACHINERY
- NANOPARTICLE-BASED DRUG DELIVERY SYSTEM
- COMPUTER AIDED DRUG DESIGN
- DRUG DISCOVERY INNOVATION AND STRATEGIES, ENABLING TECHNOLOGIES
- DIFFERENT APPROACH FOR THE ANALYSIS OF FOOD CONTAMINANTS
- ADVANCED PROCESS CONTROL FOR FOOD ANALYTICAL (TESTING)
- SMALL MOLECULE DRUG DISCOVERY & BIOANALYSIS
- BIOSIMILARS BIOANALYSIS: CHALLENGES AND SOLUTIONS
- BIOANALYTICAL STRATEGY FOR UNDERSTANDING PHARMACOKINETICS, PHARMACODYNAMICS AND IMMUNOGENICITY
- MICRO AND NANO DRUG DELIVERY SYSTEMS
- BIOANALYSIS FOR CANCER DIAGNOSIS
- CONTROVERSIAL TOPICS IN BIOANALYSIS
- BIOANALYTICAL ISSUES WITH BIOMARKERS
- BIOMARKERS IN DRUG DISCOVERY AND DEVELOPMENT
- INNOVATIONS IN BIOMARKERS RESEARCH, ASSAY DEVELOPMENT
- BIOANALYSIS OF ANTIBODY DRUGS
- MARKET TREND AND BUSINESS DEVELOPMENT OF DRUG DELIVERY SYSTEMS

GLOBAL FUNDING

The biologics market is estimated to be approximately \$190-200 billion by 2015 with a growth rate of 9.9% from 2010. Increased share of large molecule in Pharma R&D pipeline have increased the demand for more Bioanalytical testing. In this scenario, Pharma companies are increasingly adopting outsourcing (from 26% of Bioanalytical spending in 2011-2012 to 36% in 2012-2013) as a strategy to contain cost, reduce time and access expertise. The growth in small molecule NCEs (New Chemical Entity) has been less than 1% per annum in contrast to that of large molecule NBE (New Biological Entity) which is about 25% from 2000 to 2010.

Furthermore the sale of the small molecules is growing at a CAGR of 3.9% and that of large molecules at a CAGR of 10.1% from 2009 to 2015. The global advanced drug delivery market should grow from roughly \$178.8 billion in 2015 to nearly \$227.3 billion by 2020, with a compound annual growth rate (CAGR) of 4.9%. The global pharmaceutical market is expected to surpass US\$400 bn by 2018. The development of biopharmaceuticals represents a milestone for the industry and personalized therapies carry immense promise in the near future.

Registration

International Delegate	Early Bird May 26 2017	On/ Before July 10 2017	Onspot Registrastion Sep 18 2017
Industry	\$ 749	\$ 799	\$ 899
Academics	\$ 499	\$ 599	\$ 699
Student	\$ 249	\$ 349	\$ 349

Accommodation

- Single Occupancy
- Double Occupancy

Register

SPONSORSHIP

Clyto Access Organizes interdisciplinary Conferences which showcase most recent research out comes in life science and Technology in Society.

Global Bioanalysis Summit- 2017 is a 2 days conference wich has lot of scope to network, interact, engage and learn current trends in research with the business leaders and industry's foremost researchers, while understanding the major issues that face the up coming generation. our attendees will be from top level sectors like research institutes, Scientific and Commercial Organizations and Academic institutes. Clyto access offers several opportunities for sponsors in demonstrating their support collaboration towards science by providing financial assitance to our speakers of nobel research findings, hospitality and other necessary management for the scientific gathering.

Level of Sponsorship	Platinum \$ 20,000	Gold \$ 15,000	Silver \$ 10,000	Bronze \$ 7,500	Supporting \$ 3,000
